Essential book for every stock market investor, An exclusive work and mind blowing ideas which make you an independent investor in the stock market after reading this book you are able to choose winning stocks in any market condition. This is the revised 3 rd Edition of this best selling stock market book. Stop paying for stock market tips just read this book and know the winning theory in stock market and start to make money in the stock market . Here is the some of quotes from this book: - A retail shopkeeper is understood much better about market because he never put all of his money in 1-10 items, he never put stop losses in good quality items, he never average out a non performing item, and he always adopts a buy on dip and sell on rise theory, he sell an item in more than 15 return and rotate his money he is not greedy with an item like us. Fair market value of any good stock is near his one year net sell per share. Always set your fundamental target before you buy and it must be 15 higher from your buying. When you are trapped in a loss making investment then track his year high year low ratio when stock crash more than 50 from year high it means year high/ year low ratio is more than 2 so this is a sign of long term bearish trend then it is wise to book your loss. And after some year when downturn in particular script is stable mean year...
